

Victory Legal Costs Recovery Solicitors Advanced Funding Scheme

In conjunction with our partner Hampshire Trust Plc we like to offer all our solicitor clients their costs advance scheme. This is a unique and exciting scheme that allows Solicitor's practices to take advantage of greatly enhanced cash flow when they submit a file for costing to us. The Costs Advance Scheme is available to all practices, whatever their size.

The scheme promotes strong positive cash flow and so negates or reduces the pressure to compromise and thus maximises entitlement to costs - you do not have to accept ridiculous offers.

The benefits of the scheme include:

- 70% profit costs and paid disbursements may be drawn upon our preliminary assessment of the costs
- No repayment until the costs are received
- Payment by BACS direct to your office account
- Enhanced cash flow improves a practice's position in costs negotiations
- Competitive charges - deferred until settlement cheque received
- Available for all form of work
- Operated via a secure internet interface called HELIX which allows information to be obtained and account administration 24/7

We administer the scheme on behalf of all clients free of charge should you wish us to.
