Costs Solicitors

Face the Costs Challenge  
with Confidence

A risk free approach to costs recovery - [www.victorylegal.co.uk](http://www.victorylegal.co.uk)

# A complete service for the busy practitioner

At Victory Legal our aim is to make the recovery of costs as painless for you as possible by taking over this burden from your existing fee earners.

We have found over the years that many fee earners will give priority to their existing cases and leave the recovery of costs until they have time. Whilst this is good news for your clients, it is not good news for your firm and for the cash flow of your business.

## Our Services:

- **Bill Preparation**
- **Points in reply**
- **Advice**
- **Advocacy**
- **Negotiation**
- **Issuing Proceedings**
- **Attendance at hearings**
- **Collection of costs**

To discuss your specific requirements  
call us on  
**0844 980 1690**

Our aim is to not only maximise the amount of costs recoverable per case, but to ensure those costs are recovered as quickly as possible. Through the use of Proclaim, our sophisticated case management system, we have developed an automated procedure that will achieve this.

- **A free service to you**
- **Our Fees paid by Defendant**

All bills are prepared by our in house Costs Draftsmen. We deal with all negotiations, issue Part 8 proceedings as your agent, and proceed swiftly to detailed assessment on those cases where settlement has not been possible.

Once completed, we will collect the costs on your behalf and immediately transfer funds directly to you on receipt, leaving you to simply close the file.

We make no charge for negotiating and chasing payment of the agreed costs, we limit our fees to those recovered from the Defendant for bill preparation, Part 8 costs and detailed assessment costs.

## **A tailor made service to meet your needs**

All procedures are agreed with you in advance and our automated procedures can be tailored to your specific requirements.

As part of the procedure we will agree with you how you wish us to report to you. Our preferred method is through a monthly report, which we will e-mail to you in an agreed format, explaining the stage reached per case, our advice on minimum settlement and details of any offers made and received.

- **Earn success fees on the work we do**
- **Monitor all cases through our online case tracker**

In addition we offer a full case tracking facility through our web site. This enables you to see exactly what is happening on your files at any time, giving complete transparency.

Our agreement with you will reflect that we are limiting our fees to those fees we can recover from the insurers for both bill preparation, the costs of the Part 8 procedure and detailed assessment.

As we will be acting as your agent throughout, where you are acting on a CFA we will recover for you a success fee on our time. You will therefore earn money for doing nothing!

**“We have been delighted with the speed of your service and the level of costs you have been able to recover for us. Thank you.”**

**Nigel Cole  
Gray Purdue**

**“Thank you for an excellent service. Our recovery rates have increased significantly since we have been using you. Well done.”**
